BELKIN

Wireless Comfort Mouse

Other mice force your hand to conform to an odd shape. Belkin's Wireless Comfort Mouse lets your hand relax with the most comfortable mouse shape for your hand. The magnetic perch keeps your mouse in place for easy use of the scroll wheel, and secures it to your laptop while moving around the house. With the all terrain optical engine the mouse works on any surface

Options Available

F5L030qqBGP

F5L030qqMDD
